

Integrated Asset Management Strategies

## WELCOME TO THE TEAM

"Before I came to Roth IAMS, I worked for several big companies related to my position. From the very first day I experienced the difference from the others. This company is very structured, well managed and cares for the employees. Being a professional Engineer and my diversified education, knowledge, skills, and experience gained over the past, I am confident to contribute to the organization goals by following the company's core values of Collaborative, Passionate and being Consistently Curious."

**Izlal Haider**  
Facility Assessor

"I joined Roth IAMS after my graduation because it's core values really aligned with my personal views. Collaboration and Passion are the bedrock to any successful endeavor whether it be starting a career or building a company that is a leader in the Asset Management industry. I am excited to join the Roth IAMS team because it offers me a unique ability to build skills in the Asset Management field and pursue my professional goals as an aspiring engineer."

**Sterizo Nyandwi**  
Facility Assessor

"Roth IAMS provides the opportunity to work in a variety of different environments from on-site field visits working with client representatives in any number of different industries to in the office working collaboratively with the Roth team members to identify and document building elements to working from home to complete the report writing. You really get the opportunity to experience an array of work environments."

**Joe Kennedy**  
Facility Assessor
