

CLIENT SUCCESS STORY

Empowering Growth and Efficiency at Hastings and Prince Edward DSB

Challenges

New staff, evolving reporting requirements, outdated assessment data

Results

Updated data, timely reporting, enhanced internal expertise

Background: With the onboarding of a new data management clerk, Hastings and Prince Edward DSB encountered the complexities of condition assessment data administration. The task prompted the DSB to seek our expertise for guidance and support.

Process

We assumed the role of a dedicated resource, imparting training and industry best practices for maintaining condition assessment data. Through the fiscal year, our team engaged in phone and video consultations, addressing a spectrum of queries. Collaboratively, we refreshed the condition assessment data, crafting necessary recommendations pivotal for the DSB's annual financial reporting to the Ministry.

Outcome

Our support in meeting reporting requisites fortified the DSB's fiscal year funding prospects, safeguarding resources for facility enhancements and an enriched learning environment. The DSB now boasts updated and accurate condition data, amplifying its capacity for strategic long-term capital planning.

Client Quote

"Navigating the intricate world of data management was made seamless by Roth IAMS. Their knowledgeable guidance and consistent support ensured timely reporting and equipped our team with newfound expertise. A truly transformative partnership!"

Through dedicated collaboration, Roth IAMS empowers clients such as Hastings and Prince Edward DSB to embrace change, streamline processes, and harness insights for sustained excellence."
