

Job description

Energy Audit Practice Lead

Roth IAMS is looking to grow its team once again!

We are seeking experienced and passionate **Energy Auditing Professionals** to lead the growth of our Energy Auditing Practice.

Imagine working for a company that values its employees as much as its clients. **Imagine** taking a job and wanting to finish your career with that same company. **Imagine** a company that hires and invests in **full-time** professionals as opposed to relying on contract employees. **Imagine** a place where collaborative, passionate and consistently curious professionals come together to tackle the world's deferred capital renewal and maintenance backlog crisis. **Imagine** your career.better.

Roth IAMS is an industry leader in providing world-class solutions in Asset Management/Capital Planning including FCAs, ADA Assessments, Energy Audits and Capital Asset Database Management. We provide expertise to a wide variety of sectors, including higher education, K-12 education, municipal/local and state-level governments, healthcare, institutional, industrial, recreational and hospitality.

We are seeking skilled candidates that truly believe in the core values we, as a company, practise every day.

- **Collaborative** – only by understanding each other and our uniqueness can we tailor the best solutions for our clients;
- **Passionate** – our love for what we do and why we do it drives us towards excellence;
- **Consistently Curious** – we are always seeking knowledge and challenging the status quo.

Working with Us:

Roth IAMS is an equal opportunity employer. We celebrate diversity, equity and inclusion in creating a welcoming and empowering environment for all employees.

- We promote a collaborative and integrated approach across all our projects that result in successful and meaningful outcomes for our clients;
- We are committed to the efficient and effective delivery of our services through a focus on the development of our people, tools, and templates;
- Our employees are challenged with diverse and unique project work and are empowered to develop client relationships through delivery of high-quality service and demonstrated trust and respect;
- Our company culture provides many opportunities to engage in team building social activities;

Collaborative ❖ Passionate ❖ Consistently Curious

- The growth of the business will provide challenging opportunities and increased responsibility for driven and proficient individuals!

What we offer:

- Opportunity to work from home 60-70% of the time with up to 30% travel to client sites across the country;
- Travel is in 1 week increments and is fully reimbursable;
- Competitive compensation package;
- Comprehensive Health Benefit Plan;
- 401K Matching;
- Bonus program;
- Generous vacation entitlement; and
- Summer hours and Christmas shutdown.

What you offer:

- Graduate of relevant College or University-Level Engineering, Mechanical or Electrical, related Program(s);
- 5+ years of related industry experience including experience with energy audits.
- CEA or CEM Designation Preferred
- Excellent technical writing skills are required. Reporting is to be concise, follow company report formats and be based on project-specific evidence;
- Excellent organizational and time management skills to ensure projects are delivered on time and on budget;
- Effective, responsive communication (verbally and written) with the project team and clients;
- Knowledge of building components including the ability to describe and provide replacement costing;
- Proficiency in Microsoft Word and Excel is required;
- Knowledge of ASHRAE 90.1, EnergyStar, Energy Incentive programs are considered assets;
- Energy Modelling Experience
- Must be willing to work at heights, including climbing ladders and accessing rooftops;
- A valid driver's license and access to insured vehicle for travel to project sites are required (work related mileage is reimbursed);
- Ability to travel for up to a week at a time is required (work related expenses are reimbursed).

What you will be working on:

- Collaborate with marketing team to create literature that defines the practice and can be used to grow the practice.
- Collaborate with the proposal team in submission in response either to RFPs or callups.

Collaborative ❖ Passionate ❖ Consistently Curious

- Prepare SOPs or processes to obtain defensible and consistent data to be used in the deliverables
- Join an association connected with the practice, and attend conference and seminars to get updates on the practice
- Prepare training presentations to onboard new team members for their specific practice.
- Perform field review/testing and data collection and preparation of Energy audits (ASHRAE Level 1 & 2) or BOMA BEST audits complete with observations, conclusions, energy savings calculations, recommendations, budgets and options analysis.
- Perform detailed building energy modelling using applicable software.
- Perform Net-Zero energy audits.
- Prepare reports for energy audits and modelling.
- Maintain a high level of product quality; technically, grammatically, and as per company master report formats. All written reports to be proofread first by you, then peer reviewed by the Project Manager or other designated Peer Reviewer. Ensure draft documents are prepared to the level expected by the Project Manager and Peer Reviewer.
- Since we are committed to our clients, you may be required to be responsive during and outside of normal business hours (cell phone and VPN network access will be provided);
- Be cognizant of and/or manage time and project costs to ensure project profitability;
- Assist and/or manage planning of projects through to completion;

Assist where necessary with building condition assessments. This may include:

- Independently carry out Mechanical & Electrical building systems on-site visual assessment, investigation and/or Roof, Envelope, Structural and Architectural building systems on-site visual assessment, investigation, and/or Site Surface and underground infrastructure systems on-site visual assessment, investigation; including liaison with clients as needed;
- In most cases, utilize proprietary software for data collection and reporting – such software includes but is not limited to: SLAM CAP, VFA, facility, and AssetPlanner;
- Independently review drawings for quantity take-offs and prepare multi-discipline FCAs, reserve fund studies, capital planning projects, technical/building audits or other investigative reports complete with observations, conclusions, recommendations, and repair budgets;

Please note that the description above is not a comprehensive listing of activities, duties or responsibilities that may be required of the employee and other duties, responsibilities and activities may be assigned or may be changed at any time with or without notice.

If you're ready to make a change and want to become part of a rapidly growing company, please apply. We thank all candidates for their submissions, however only successful candidates will be contacted for interviews.

Collaborative ❖ Passionate ❖ Consistently Curious
