

EQUIPMENT INVENTORY & TAGGING (EI&T)

An Asset Tagging Solution

For Facilities Managers & General Contractors

A PROVEN EI&T SERVICE FROM ROTH IAMS

Knowing what equipment you have, where it is, and how to maintain it is the first step toward reliable facility operations. Roth IAMS' Equipment Inventory & Tagging (EI&T) service lays the groundwork for your Preventative Maintenance Plan by giving you the data you need to support long-term planning and day-to-day performance.

WHY START WITH EI&T?

From schools and colleges to hospitals and government facilities, every organization depends on critical equipment to fulfill its mission. But you can't manage what you haven't defined.

EI&T is the first and most important step in setting up or enhancing your CMMS (Computerized Maintenance Management System).

Our Services:

Building the Foundation of Preventative Maintenance

Roth has developed a Preventative Maintenance Library which can be used to schedule the tasks needed to keep your equipment running with maximum efficiency.

Our EI&T Service

Scalable Detail Levels

Whether you need a basic inventory to get started or a detailed dataset including performance assessments and Preventative Maintenance (PM) schedules, we scale to meet your goals.

Preventative Maintenance (PM) Library Access

Tap into our comprehensive PM Library to assign maintenance tasks, frequency and timelines based on equipment type and manufacturer recommendations.

Comprehensive Equipment Inventory & Tagging

Our trained assessors visit your site to collect key data—location, equipment type, make, model, and serial number—tagged with a unique identifier like a QR code or Barcode, based upon the requirements of your CMMS platform.

CMMS-Ready Data Mapping

We structure and deliver your equipment data in a format optimized for direct upload to your CMMS—compatible with a wide range of systems.

Why Choose Roth IAMS?

With teams across the U.S. and Canada, Roth IAMS brings national reach with local service. Our EI&T experts understand that each facility is different—and each mission is unique. That's why we tailor our services to match your operational priorities, supporting a more proactive, efficient, and resilient facilities management program.
